Health About Gone
Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE CARDUI
The Woman's Tonic
She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

FARM AGENTS COLUMN
(By C. W. Brown, County Agent)
Corn, Cotton, and Peanut Club Members.
1. Have you selected your land? Your seed? If not, do so at once.
2. Give length, width, and area.
3. Why did you select this certain acre? Describe the soil.
4. Why plant corn in fertile bottom land?
5. What kind of land should be plowed in fall? What kind in the spring?
6. What kind of fertilizer is best for soil, generally speaking?
7. Why should a seed-bed be deep? What is meant by "cover crop"?
8. Tell what you know about the selection of seed.
CORN—
1. I have selected my land.
2. But have not measured it.
3. I saw corn grow there before; it made very good corn for the season it had.
4. There is more plant food in fertile bottom land than there is on the upland. The corn will not burn up as quickly, for the ground is generally sandy and will hold the moisture good.
5. Tight land should be plowed in the fall in order to let the winter rains soak into the ground. Hilly land, where the land washes, should not be plowed until spring.
6. Barnyard manure is best for the land, generally speaking.
7. A seed-bed should be deep so the seed would have moist dirt to come up in and so the ground will be loose and deep for the roots to have plenty of room.
Any crop that is sowed broadcast, like oats, wheat and all kinds of grass, is a cover crop.
8. You must select your seed in the field. Get it of the best matured stalks and the stalks that have the most ears that are well matured.

Myers Convicted.
It didn't take the jury very long to conclude from the evidence that W. F. (Dink) Myers was guilty, as charged in the information, of rape in the first degree, and to give him fifteen years in the penitentiary. The Myers case came to trial Thursday morning and was concluded the same day. The details of the Myers affair aren't fit to print. Myers married a young country girl and took her away, when he through threats of violence forced her to lead a life of shame.

City League Ball Schedule.
At a meeting of the City Baseball League held Thursday night at the call of President M. M. Morrow, it was decided to open the season with a double-header on April third, and that the games shall be preceded by a street parade and general hurrahs through the city.
The opening games are to be between the Printers and the Merchants for the first, and the Normal and the Bankers for the second. The plan was for two games weekly, on Tuesday and Thursday afternoons, and much interest is being manifested in the League.
The Bankers' team is under the management of Ralph Ownby of the First National Bank, who is said to be some warm number as a southpaw twirler; the Printers are in charge of Lambert, of the Democrat Printing Company, who used to be a ball player but likes the printshop better; the Merchants leave their destiny in the hands of Mike McDaniel, who used to play real league ball, and the Normal team is in charge of P. E. Laird, who has fooled with athletics all his life.
